Their reign extended no farther south than Ilien and did not include Felkway in the east, Paln and Semel in the west, or Osskil in the north, but they did send explorers out all over the Inmost Sea and into the Reaches. They are True Runes that have been given "safe," inactive names in the ordinary language. Their true names in the Old Speech must be memorised in silence. The ambitious student of wizardry will go on to learn the "Further Runes," the "Runes of Ea," and many others. True Runes are not symbols only, but reifactors: they can be used to bring a thing or condition into being or bring about an event. To write such a rune is to act. The power of the action varies with the circumstances. Most of the True Runes are found only in ancient texts and lore-books, and used only by wizards trained in their use; but a good many of them, such as the symbol written on the door lintel to protect a house from fire, are in common use, familiar to unlearned people..beyond comprehension and he was nothing at all. Among the Kargs the power of magic appears to be very rare as a native gift, perhaps because it was neglected or actively suppressed by their society and government. Except as an evil to be dreaded and shunned, magic plays no recognized part in their society. This inability or refusal to practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, which may explain why they have generally held themselves aloof from trade or any kind of interchange, other than piratical raids and invasions of the nearer islands of the South Reach and around the Gontish Sea. thin, with a sullen, steady gaze..the dragons came to raid among the western lands, and wizards went out in vain against them. Diamond thought his father . meant the business -- the loggers, the sawyers, the sawmill, the chestnut groves, the pickers, the carters, the carts -- all that work and talk and planning, complicated, adult matters. He never felt that it had much to do with him, so how was he to have as much to do with it as his father expected? Maybe he'd find out when he grew up.. "There was no place for him among the Masters, since a new Master Summoner had been chosen, a strong man in his prime, not likely to retire or die. Among the scholars and other teachers he had a place of honor, but he wasn't one of the Nine. He'd been passed over. Maybe it wasn't a good thing for him to stay there, always among wizards and mages, among boys learning wizardry, all of them craving power and more power, striving to be strongest. At any rate, as the years went on he became more and more aloof, pursuing his studies in his tower cell apart from others, teaching few students, speaking little.
